

## GET IN GEAR 2012

### NEW ONLINE REGISTRATION PROVIDER

A note about our online registration provider:

Get in Gear has worked many years with the Active Network on providing our online registration needs and we have learned much throughout the process of on-going changing technology and have appreciated the partnership. For 2012, Get in Gear, Inc. is partnering with Get Me Registered (GMR) for reasons that we know will make your registration process a cleaner, more private and more intuitive process. We look forward to working with the Get Me Registered company and invite your feedback this year as we partner to provide you with the best online registration experience we can offer.
